COMPETITION:

Return to Competition - Training of Officials update

Whilst we continue to negotiate the return to competition within a landscape of changing Covid-19 restrictions, some adjustments to the requirements for training officials continue to be appropriate. The overriding principle remains adherence to the Covid-19 restrictions in force in the relevant area at the time. Training, mentoring and assessments must only take place if they can be conducted in a safe and legal manner. Please see the full statement attached.

Open Meet Licensing Criteria update - Effective until 10th March 2022

Whilst we continue to negotiate the changing landscape of Covid 19 the previous adjustments made to the number of Technical Officials required for Licensed Meets and the level of qualification required for each role have been extended. They have been designed to facilitate safe competition and should be seen as minimum requirements. It continues to be important for the sport that athletes have times that have a solid provenance and have been achieved at meets run with integrity. These adjustments will remain in place for all meets taking place up until 10th March 2022 (inclusive).

2022 Regional Championship Update - Information & Qualifying Times

Due to the ongoing circumstances, it is challenging, at present, to set the qualifying times for entry into the 2022 Regional Championships in April/May. This is due to both limited current

data within rankings, as well as the circumstances and guidance in the run up to and during the Championships being unknown. Please read the full statement and current Qualification Times by clicking [here](#). Full schedules and conditions will be available on the Championship website in the New Year.

FUNDING:

Swim England's new toolkit to offer 'accessible' financial guidance to clubs

Swim England has started work on a new toolkit which will aim to offer 'accessible' financial guidance to aquatics clubs. The toolkit is being produced after the 'Return to Water' survey revealed that one of the main challenges faced by clubs was financial sustainability. The toolkit will help to equip clubs with the necessary knowledge for them to manage their finances efficiently, as well as support them with the process. The progress of the toolkit will be documented with updates from Swim England, with a view of officially launching the resource in spring 2022.

Sport England £20m Together Fund

A further £20 million of National Lottery funding is being made available to help tackle inequalities in physical activity levels as the nation continues its recovery from the coronavirus (Covid-19) pandemic. Last year, as part of our initial response to the crisis, we launched the £20m Tackling Inequalities Fund (TIF) that focused on lower socio-economic groups, culturally diverse communities, disabled people and those with long-term health conditions. Now, a further £20m will be spent on helping the same audiences to become active or get more active as TIF becomes the Together Fund. Read more here:

'Club for Everyone' – a brand new Club Matters workshop!

This brand new workshop from Club Matters encourages organisations to consider how they can create long-term, sustainable change to ensure sport is accessible to all. Stubborn inequalities exist in sport, and certain groups of people face more barriers than others to participate. The Covid-19 pandemic has further reinforced or exacerbated these inequalities, particularly for people with disabilities or long term health conditions, people from lower socio-economic groups and people from ethnically diverse communities.

The new 'Club for Everyone' workshop is a great starting point for encouraging organisations to work to achieve positive change, and identify actions to become more welcoming, friendly, accessible and inclusive. More information can be found here:

<https://www.sportenglandclubmatters.com/club-matters-workshops/a-club-for-everyone/> but please get in touch with the team at clubmatters@sportstructures.com for any queries.

Uploading Officials Certificates to <https://www.swimmingresults.org/> update:

Helen Akers, Officials Development Coordinator, has emailed us to share the following around uploading officials' certificates:

- Please do not email copies of certificates to Swim England Membership as they will not be able to add them for you.

- You need to ensure you choose the right type of certificate and also use the correct date, if you don't please do not upload it again. Helen will be able to sort this out but can only verify each qualification once, meaning that duplicate uploads have to be rejected.
- Please do not upload old-style certificates. You can only be credited with a qualification once, so they will also be rejected.
- If you are signing evidence of timekeeper competence, please remind them that they also need to upload their theory certificate.
