Have you heard about the Club Health Tracker but not sure what it is or why to do it? Then, this speedy 20 minute intro webinar is for you. We will run through all you need to know about Swim England's online club development tool and how to access your clubs instant results.

- Monday 27th Nov – 7.00pm- 7.20pm

Further information and registration link –

The Swim England Club Health Tracker has opened for Year 2. This innovative online tool assists clubs to review and measure their club development work and benchmark against other clubs, regionally and nationally.

Not only will the Club Health Tracker help spot areas for development, it will also clearly measure successes year on year. It gives clubs the opportunity to quantify and celebrate the committee work (and the people) that have created progress in their club development.

The Swim England Club Development team offer bespoke support for any club identifying needs, plus signposts to resources and case studies with ideas for best practice.

Last year the East Midland region had more club responses than any other region and all those who flagged areas of concern were contacted by Swim England individually.

Club Treasurer Contact

The Region uses Xero the accounting software, we are looking to ensure all club contacts are up to date within this, due to the large number of personal emails on the club personnel report it isn't possible to cross reference with this, we would be grateful if the link below can be completed ideally with a generic club email.
